

Orpita Bhakto

Triage Service Analyst

✉ obhakto@gmail.com ☎ +44 7749844538 📍 Manchester, UK

Profile

Proactive Triage Service Analyst with over 3 years of experience in fast-paced service roles across the telecom and airport sectors. Applied outstanding listening and questioning techniques alongside strong research and problem-solving skills to triage incidents and identify root causes of complex faults. Used excellent written and verbal communication to break down technical details, build professional rapport, and deliver high-standard customer service that consistently met user needs and strict SLAs. Combined a sharp ability to document and synthesize information quickly with meticulous attention to detail to manage user access permissions and maintain data integrity. A collaborative team player who uses strong prioritisation skills to navigate busy ticket queues, staying steady and focused during peak periods. Excited to bring my continuous learning mindset to IBM to quickly learn Oracle ERP and HCM systems.

Professional Experience

Manchester Airports Group - MAG

11/2025 - 03/2026

Reward & Wellbeing Co-Ordinator

Manchester, United Kingdom

- Organised the department's shared mailbox using prioritisation mindset to sort and triage incoming requests, which cut down response times and ensured issues were handled rapidly.
- Investigated system access blocks using my problem-solving skills to see why staff members were locked out of their benefits portal, updating their account settings so they could log in successfully.
- Triage incoming support tickets for various system requests, resolving standard queries directly and managing advanced escalations through to a rapid closure..
- Analysed data errors and missing reward entries using MS Excel with close attention to detail, securely cross-checking numbers to ensure total accuracy before sharing final Management Information (MI) reports.
- Absorbed our internal benefit systems quickly to document clear, step-by-step guidelines for team procedures, which kept our data handling fully compliant with GDPR rules.

BT Group

08/2022 - 10/2025

Customer Solutions Advisor(Tech & Billing)

Leeds, United Kingdom

- Diagnosed broadband and router faults on busy inbound phone lines by using careful listening and questioning, breaking down technical jargon so it was easy for non-technical customers to understand.
- Managed a high-volume queue of 30+ daily technical and billing incidents under pressure, staying focused and organized to achieve a consistent 90% First Contact Resolution (FCR) rate.
- Engaged in continuous training and development to adapt quickly to frequent internal system changes, delivering excellent customer service that earned a 70%+ Net Promoter Score (NPS).
- Collaborated closely within a team of 10 and across 3 internal support departments, using internal escalation processes to pass on complex technical issues and meet our strict client SLAs.
- Maintained customer accounts using a CRM system to accurately log, update, and track interactions, ensuring every case was fully documented in line with company security procedures.

Personal Achievement - Certification

Google IT Support Certification

- Completed core modules covering Operating Systems, Computer Networking, Systems Hardware, and Troubleshooting Methodologies.
- Practised navigating and managing file permissions using the Command Line Interface (CLI) in Linux and PowerShell in Windows environments.
- Gained a practical understanding of network protocols (TCP/IP, DNS, DHCP) to diagnose and fix internet connectivity and routing issues.
- Utilised five-step troubleshooting methods in virtual labs to identify hardware faults, manage system processes, and resolve user access problems.
